

Sustaining Engineer and Document Control Manager

Location: Valencia

Type: Full Time

Reports to: VP of Engineering

Salary: \$150K-\$175K (annual)

Position Opened: 12/04/2023

About H2scan Corporation

H2scan was founded in 2002, and is headquartered in Valencia, California. H2scan helps our customers meet safety, regulatory and process control requirements in mission critical industries such as energy, utility, petrochemical, fuels cell and gas lines. We do that by providing the most accurate, tolerant and affordable continuous hydrogen sensors for monitoring of industrial processes that generate or use H2, including transformer condition monitoring. H2scan holds 33+ patents and our products are sold in over 50 countries.

Job Description

Sustaining engineers are responsible for ensuring that the software systems they work on remain functional and stable over time. They commonly focus on identifying and resolving bugs or other issues that may arise in existing code, but they may also be involved in adding new features to these systems as well.

Responsibilities

- Lead and support product sustaining efforts, identifying opportunities for improvements in product design, and performance.
- Work with cross-functional teams to resolve design, quality, and manufacturing issues.
- Manage field returns, analyzing root cause and implementing corrective actions and follow through on executing CAPA's and ECO's.
- Support cost reduction, EOL, and continuous improvement of products.
- Drive, champion, and lead implementation of PLM software (ARAS) and be a champion inside the organization.
- Champion Value Analysis and Value Engineering (VAVE) projects.
- Lead and support the process to retiring technical debt from past NPD projects.
- Serve as the technical expert for a product or group of products, providing engineering support during the entire product life cycle.
- Oversees the daily workflow of the department.
- Provides constructive and timely performance evaluations.
- Prepares and executes departmental budget.
- Negotiates contracts with outside vendors.

H2scan is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation and gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.
